Commissioner for Patents

The response filed on 10/2/2006 is not responsive to the previous office action for the reasons pointed out on the following page.

Art Unit: 2142

Notice of Non-Responsive Amendment

1. The reply filed on 10/2/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The applicant's remarks do not specifically address any claim limitations. The remarks are literally generic enough to apply to any rejection based on 35 USC section 103. A general allegation that the claims define patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of section (b) of 37 CFR 1.111. The applicant has not "distinctly and specifically pointed out the supposed errors in the examiner's action" nor has the applicant "shown how the language of the claims patentably distinguishes them from the references". See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas B. Blair whose telephone number is (571) 272-3893. The examiner can normally be reached on 9:00am-5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Andrew Caldwell can be reached on (571) 272-3868. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
